

REMARKS

Prior to this Amendment, Claims 1-9 were pending in the application. Claims 1-6 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 5,414,444 to Britz in view of Japanese Patent Application Publication No.11-264960 to Shiin; Claim 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Britz in view of Shiin and further in view of U.S. Patent Application Publication No 2001/0036845 A1 to Park; and Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Britz in view of Shiin, and further in view of Japanese Patent Application Publication No. 2002-359678 to Masami et al.

As indicated above, Claim 1 has been amended. No new matter has been presented. Claims 1-9 are now pending, with Claim 1 as an independent Claim.

Regarding the §103(a) rejection of independent Claim 1, Claim 1 has been amended to recite, part:

a first lens housing, shaped as a cylinder, rotatably attached to the portable wireless terminal so that the first lens housing can be rotated about a first rotating axis extending in a direction perpendicular to a base of the cylinder...

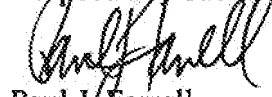

FIG. 3 of the present application illustrates that the first rotating axis A1 is perpendicular to the bases of the cylindrical shape of the first lens housing 301. By contrast, the axis of rotation disclosed in Shiin is parallel to the bases of the cylindrical shape of the lens housing. (Shiin, FIG. 4). Therefore, Shiin does not teach, disclose, or suggest the above-quoted limitation of independent Claim 1. Further, Britz does not cure the deficiencies of Shiin. Therefore Britz and Shiin, neither alone, nor in combination, teach, disclose, or suggest all of the claimed features of Claim 1. Therefore, Claim 1 is patentable over Britz and Shiin. Accordingly, withdrawal of the rejection of Claim 1 is

respectfully requested.

Claims 2-9 are dependent claims, and are believed to be in condition for allowance for at least the reasons given above with regard to independent Claim 1.

Accordingly, all of the claims pending in the Application, namely, Claims 1-9 are believed to be in condition for allowance. Should the Examiner believe that a telephone conference or personal interview would facilitate resolution of any remaining matters, the Examiner may contact Applicants' attorney at the number given below.

Respectfully submitted,

Paul J. Farrell
